SMS FLATSCREEN WH 3D

Makes light work of heavy loads. And three ways matching the colour. The aluminium version of our largest 3D arm is both gracile and strong. Although it now weighs 8 kg less than previous versions, it can support screens up to 45 kg (approximately 50”) at a distance of 70 cm from the wall, or right next to it. Choose one of three new finishes: Glossy White, Piano Black or Dark Grey, for tasteful matching with the room and the equipment.

◯ Ceiling	◉ **Heavy weight**	◯ Fixed	◯ Variable
◉ **Wall**	◯ Middle weight	◯ Swivel	◯ UniSlide
◯ Floor	◯ Light weight	◯ Tilt	◯ Hidden
◯ Table		◉ **3D**	◯ Double
		◯ Mobile
